

COMPANY PROFILE

Founded in 2006, Meril is an India-based, global medical device company that is dedicated to the innovation, design and development of novel, clinically relevant and state-of-the-art devices. As a leading healthcare solutions company, our fundamental aim is to champion the alleviation of human suffering and improve quality of life. To enable this, we are committed to R&D, innovation in manufacturing medical technology, scientific communication, and contemporary distribution avenues.

Meril was established by the **Bilakhia Group**, to improve the quality of human life through innovative and advanced healthcare solutions. As a medical device manufacturer, we strive to improve the inventiveness in healthcare so that people's lives are enriched. We continually seek excellence in providing answers to some of medicine's toughest questions.

Meril manufactures medical solutions in the form of vascular intervention devices, orthopaedic supplements, in-vitro diagnostics, endo-surgery and ENT products. It is our core commitment to ensuring the delivery of advanced healthcare solutions. Our inclination towards research and development is reflected in our diverse offerings. We ensure that we adhere to the best quality of standards in manufacturing, scientific communication and distribution to deliver path-breaking healthcare products to the world.

We collaborate with physicians and global innovators to identify unmet clinical needs and develop revolutionary therapies. We encourage research and academic collaborations and remain available to interact on exciting opportunities. Headquartered in India with manpower of more than 4000, with more than 350,000 sq. ft. of ultra-modern R&D manufacturing facilities at Vapi, Meril has vertical integration of all activities to ensure superior product quality, competitive market price & dedicated customer services at all times.

We design and manufacture the following vertical equipment and medical devices-

- **Diagnostic Equipments** -- for Semi and Fully Automatic Analyzers (100/200/400/800 throughput equipments), Coagulation Analyzers, Hematology Analyzers (3PDA/5PDA), ELISA Readers and Washers, CLIA Reader, a unique CLIA-ELISA Reader. All the products are indigenous (developed and manufactured by Meril).
- **Reagents** -- for all the Analyzers offered by Meril (Biochemistry/ Hematology/ Immunology/ Rheumatology).
- **Rapid Diagnostics Tests** -- for Malaria (Pf/ Pv/ Pan species), Dengue, HIV 1/2, HBsAg, HCV, hCG, and COVID-19 (Antigen, RTPCR, Antibody, Self test).
- **Sutures** -- Indigenously manufactured sutures and needles in completely backward integrated facility. Product range includes PGA/PGLA Absorbable sutures, Polydioxanone sutures, Silk

Meril Diagnostics Pvt. Ltd
