

TRACK-E

**HEALTH SYSTEMS, ECONOMICS AND
IMPLEMENTATION SCIENCE**

RAPPORTEUR: OLIMPIA LASWAI (TANZANIA)

PRESENTATION OUTLINE

TRACK E RELATED EMERGING THEMES:

- Innovations made during COVID 19
- Healthcare service integration
- Differentiated HIV service delivery
- HIV Response monitoring
- Health economics and financing

INNOVATIONS MADE DURING COVID 19

- ✓ Use of **QuickRes** online booking application in Namibia
- ✓ Use of web based **Ushauri** platform for appointment management in Kenya
- ✓ **Home delivery of ART** through courier services and motorcycles in Uganda
- ✓ **Virtual consultation** with clients and HCWs
- ✓ Expansion of MMD of ART to children in Tanzania, Nigeria and Zambia
- ✓ Use of workplace **HIVST vending machines** in Kenya

SERVICE INTEGRATION

- ✓ **Intergration** of COVID 19 testing and vaccination into HIV services
- ✓ Use of **FP/ART integrated resupply model** increased uptake of FP and optimal ARV in Zimbabwe
- ✓ **Integration of IPV routine enquiry in EAC** for all virally unsuppressed women and offering IPV tailored enhanced adherence support was found useful in improving viral load suppression in Nigeria
- ✓ There is a need to strengthen the delivery of integrated SRH and HIV services to enhance the one stop centres for SRH/HIV services targeting AGYW (eg **Pink Day initiative in Zambia**)

HIV RESPONSE MONITORING

- ✓ Need to strengthen M&E systems and patient level data
- ✓ Introducing **909090 district graduation process** helped to see districts lagging behind and hence informed effort concentration in South Africa
- ✓ Comparing data from different datasets help to identify process and system gaps and address them through quality improvement
- ✓ Stakeholders engagement is key to efficient utilization of data to guide evidence based planning and implementation of HIV services

DIFFERENTIATED SERVICE DELIVERY(I)

- ✓ Youth intern programs improves HIV service delivery in South Africa
- ✓ CFBDSD implementation is cost effective and outcomes accross DSD models are measurable and effective
- ✓ There is a need to **advance person centred care of HIV treatment** within the context of global and bilateral HIV programs to attain the 95 95 95 goals
- ✓ Implementation of **standardized EAC package** improved EAC uptake, completion and viral suppression among children and adolescents in Kenya

DIFFERENTIATED SERVICE DELIVERY(II)

- ✓ Call to strengthen differentiated social protection service delivery approaches to include economic strengthening, mentorship programmes, skills developments and entrepreneurship
- ✓ Train and sensitize HCWs on gender and human rights in order to eliminate stigma and discrimination perpetuated by HCWs towards AYP
- ✓ Strengthen community engagement with key stakeholders such as traditional and religious leaders, parents and community leaders

- ✓ Decision makers should address social economic inequalities through **reducing user fees and increasing the number of treatment centres** especially in rural areas
- ✓ Governments are called to **increase and equitably allocate resources**
- ✓ **Advocate for CLM** as communities through advocacy can shift the framing of policy issues and debates related to health financing
- ✓ Governments needs to **address regulatory and competition barriers** and increase affordability to life saving medicines, diagnostics and technologies

**Ngiyabonga Kakhulu!
Asante Sana!**

The race to 2030; Be the reason diversity and inclusion happens
